

WIRELESS FOLLOW FOCUS

- ▶ Built-in wireless receiver modules: program and calibrate your motor remotely with your controller.
- ▶ Our motors minimize power consumption with brushed motors, and remain silent when not actively pulling focus.
- ▶ Our mini controllers have all the same features as the Express controllers.
- ▶ The Cinegears Multi Axis Wireless Receiver drives up to 6 Cinegears Lens Control Motors.

CINEGEARS®

Advanced Wireless Technology for Film and Cinema

VR 3D PLAYER & GHOST EYE HMD

- ▶ Firmware upgradeable mobile processor with true 4k signal.
- ▶ Processes signal uncompressed, providing perfect picture quality broadcasting.
- ▶ Streamline virtual reality and 3D production workflow with direct on-set monitoring.

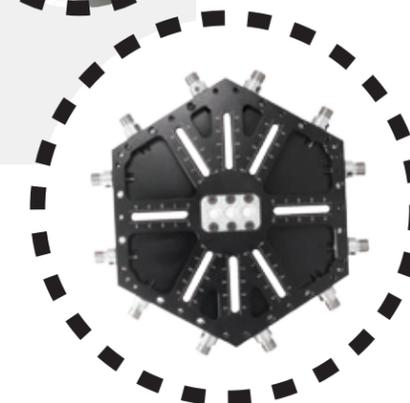

FXLION BATTERIES

- ▶ World leader in safe, durable, and impressively long lasting lithium-ion batteries.
- ▶ The travel-ready charger has all the features you would expect from a full-size professional charger, including a 5-level charging flash indicator, a standard USB port, surge protection, and balance charge regulation.

HEX VR 360 CAMERA RIG

- ▶ A revolutionary, completely modular design: you decide what the Hex is capable of.
- ▶ Mount up to 16 cameras for stereoscopic 3D filming.
- ▶ Heavy-duty aluminum unibody build.
- ▶ Use the Hex Mini Rig to capture full 360 VR using small cameras for maximum mobility.

3D RIG

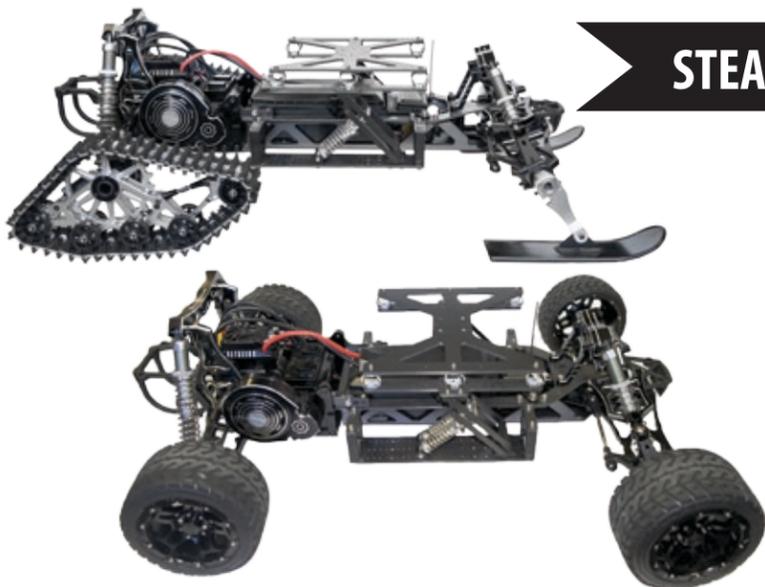

- ▶ Lightweight, compact 3D shooting system.
- ▶ Convenient to assemble, flexible, and easy to adjust.

PEGASUS CABLE-CAM/DOLLY-CAR

- ▶ Bi-directional unit is fully pre-programmable with the Cinegears Cable Cam controller.
- ▶ Comes with everything you need to shoot professional-grade time-lapse shots.

STEADYPLUS GIMBAL CAR

- ▶ Fastest Gimbal car on the market with a top speed of 80 km/h.
- ▶ Interchangeable wheels, snowboards, and treads for performance on terrain.
- ▶ 2.4 G hz Remote control range up to 5 km to 10 KM.

GHOST EYE WIRELESS VIDEO TRANSMISSION

- ▶ Transmit uncompressed 1080p, 60fps video.
- ▶ Has both HDMI and SDI output/input, and features in-unit cross conversion.
- ▶ All Ghost-Eye transmitter and receiver models are cross compatible; transmit video from 400M transmitters to 150M and 300M receivers and vice versa.
- ▶ Upgrade to the 400ME: stop piracy/bootleg in it's tracks.

SECCED TRIPODS

- ▶ Cinegears is the exclusive distributor of SECCED products in North America
