## RC Rail Accessory Kit

### Introducing the CINE RC 6 Meter Rail

Accessory Package, an easy to set-up and portable dolly car rail system. Can be used in 1.5 Meter sections with 4 included sections in each kit. Operating your CINE RC Gimbal car safely in the most challenging environments with extra support and stability.

\*RC car is not included in the kit

# SPECS

- 4 x 1.5 meter sections
- Adjustable feet for precision leveling
- Easy to use clamp system for connecting segments

# WHAT'S INCLUDED IN THE PACKAGE

4 Aluminium Rails

4 Mounting Legs

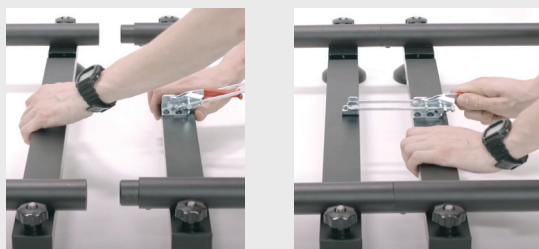

10 Thumbscrews

- ① Screw the rails into the proper support legs using your included thumbscrews. The two spaces is for cars with different widths.

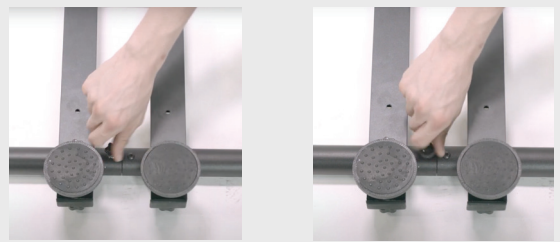

- ② When everything is screwed on, you can go and line up your two sections together and clamp them together.

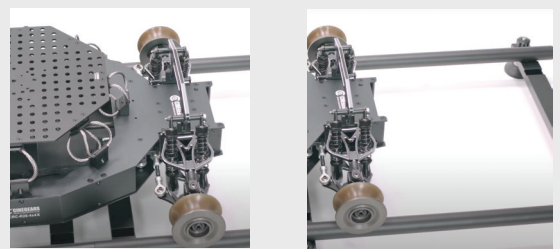

- ③ You might need to adjust the clamp a little for a proper fit. The last thing you want to do is to make sure all the feet are leveled good contact with the ground.

- ④ Once its screwed together you can use the remaining thumscrews to scew the rails together.

- ⑤ And now you are ready for the RC Dolly.
